Ukraine - New opportunities on fertile grounds

(Frick, February 11, 2014) The fertile black soils of Ukraine are famous and provide perfect conditions for organic farming. At upcoming BIOFACH at Nuremberg, we offer you an interesting opportunity of getting more acquainted with the growing organic sector of Ukraine and explore new business opportunities.

For the first time, at BIOFACH 2014, Ukraine will have an own organic country pavilion in Hall 5, booth 161. Involving nine important Ukrainian companies, the pavilion is organised in the frame of the Swiss-Ukrainian Organic Market Development Project, funded by the Swiss Confederation through the State Secretariat for Economic Affairs (SECO).

In cooperation with Swiss Research Institute of Organic Agriculture, FiBL Switzerland, the exhibiting companies present products for which Ukraine has as excellent production conditions such as: cereals, soy, sunflower seeds and oil, as well as different cultivated herbs and wild collected berries.

The exhibiting companies are the following:

- > Agrofirma Pole Ltd (www.agropole.com.ua): millet, hulled milled, mix of millet shells and meal, millet shells, sunflower seed, rape seed, mustard seed, wheat.
