Press release

The new forms for registration of products for the Input List 2023 are now online available

Now manufacturers and distributors of inputs can register their products for the Input list for organic production in Germany 2023. The Input list is published by FiBL Projekte GmbH.

(Frankfurt, April 14th, 2022) Products appropriate for organic production can now be registered by using the new forms for Input List 2023 Germany of FiBL Projekte GmbH. The current registration forms are available online in German at www.betriebsmittelliste.de and in English at www.input-list.com. Additionally, you will find there further information on product listing.

The experts of the Research Institute of Organic Agriculture (FiBL) will evaluate the submitted products regarding to their qualification for organic production. The release for listing is due to the rules of EU Organic Regulation 2018/848 and to the supplementary FiBL criteria. Furthermore, the conformity to the standards of German organic associations Biokreis, Bioland, Demeter, Ecovin, Gaa and Naturland will be checked.

The German Input List 2023 become effective online as of the beginning of 2023. However, products can be registered at any time throughout the year and are visible online at www.betriebsmittelliste.de/suche and www.input-list.com. The entries will be continuously increased and updated.

Likewise, we offer now the option to register products of categories fertilizers and plant protection agents for the Spanish and/or French Input List.

Products which are also applied for the [European Input List](#) and/or [Demeter International](#) can be found additionally on the corresponding websites. So these lists can also be used for the European Market and companies in other countries.

You will be informed separately by mail about the re-registration process of your already listed products in spring/summer 2022.

New scale of fees available online.

Our scale of fees is updated. You will find the new fee schedule attached and on our websites www.betriebsmittelliste.de and www.input-list.com.
